PROFESSIONAL SUMMARY

Full-stack software developer with hands-on experience building production-grade applications — from database design to cloud deployment — using C#, ASP.NET Core, React, Vue.js, Node.js, TypeScript, PostgreSQL, and MongoDB. Brings over a decade of professional quality assurance and regulated testing experience, with a solid foundation in object-oriented programming, software design patterns, troubleshooting, technical documentation, and Agile/DevOps practices.

TECHNICAL SKILLS

Programming Languages: C#, JavaScript, TypeScript, SQL, Java, C++, COBOL

Frameworks & Web Technologies: ASP.NET Core, .NET Core, React, Vue.js, Node.js, Express.js, HTML5, CSS3, REST APIs, JSON

Databases: SQL Server, PostgreSQL, MongoDB, Relational Database Design, Query Development

Tools & Platforms: Git, GitHub, Docker, PowerShell, CI/CD Pipelines, Visual Studio, VS Code, Windows 10/11

Systems & Networking: TCP/IP, Client-Server Architecture, Application Support, Technical Troubleshooting

Software Development & Engineering: Object-Oriented Programming (OOP), Software Testing, Debugging, Agile & DevOps Practices, Technical Documentation, Workflow Automation, API Integration, JWT Authentication

Quality Assurance & Testing: Manual Testing, Test Case Design, Defect Identification & Tracking, Root Cause Analysis, Regulatory Compliance Documentation, SOP Development, Process Improvement, Data Validation

EDUCATION

Computer Programming and Analysis – Advanced Diploma (Co-op)

Sep 2023 – Expected 2026 | Fanshawe College

Relevant Coursework

- OOP with C# & .NET
- Full-Stack Web Development
- Database Design & SQL
- Systems Analysis & Design
- DevOps & Agile Practices
- Data Structures & Algorithms

Applied Chemistry – Bachelor's Degree

Sep 2001 – Jan 2006 | Damascus University

Transferable Skills: Analytical Problem-Solving, Statistical Data Analysis, Experimental Design & Method Validation, Laboratory Documentation & Technical Reporting

TECHNICAL PROJECTS

CampusHub – Team Capstone (in progress) | https://github.com/Youssefrrajeh/Campus_hub

React, TypeScript, Node.js, Express, Prisma, MongoDB, Socket.IO, Vitest

- Building a campus platform for Fanshawe students with a capstone team, combining a marketplace, study groups, and messaging behind verified college email sign-up.
- Implemented JWT authentication with emailed one-time verification codes, password reset, user profiles, and real-time messaging; wrote API and UI test suites that run in a GitHub Actions CI pipeline.

Full-Stack E-Commerce Platform | <https://fullstack-lofy.onrender.com/>

ASP.NET Core 8, Vue.js, PostgreSQL, Entity Framework Core, JWT, Docker

- Built an online store where customers browse products by brand, manage a cart, place orders, and view order history, backed by REST APIs and Entity Framework Core.
- Secured the API with JWT authentication, added a TomTom Maps branch locator, and deployed the app to Render from a multi-stage Docker build.

WordleGame | <https://github.com/Youssefrajeh/WordleGame>

C#, .NET 9, ASP.NET Core, gRPC, Protocol Buffers

- Built a Wordle clone as three .NET services communicating over gRPC (word provider, game server, console client), using bidirectional streaming for live guess feedback.

More projects (desktop, C++, and Next.js work): youssefrajeh.com | github.com/Youssefrajeh

PROFESSIONAL EXPERIENCE

Plastic Blowing Section Supervisor

May 2020 – Sep 2022

Hoka Industry | Douala, Cameroon

- Monitored production output against quality specifications, inspecting product and documenting nonconformances to maintain consistent quality standards.
- Diagnosed root causes of operational and quality defects, implemented corrective actions, and updated quality control documentation.

Laboratory Technician | Production Manager

Nov 2006 – Sep 2020

Madar Group & SICCO & Hoka Industrie

- Performed structured testing protocols and quality control analysis on production samples, documenting results to support internal audits and regulatory compliance reporting.
- Applied rigorous QA/QC standards in a regulated manufacturing environment, identifying defects and communicating technical findings clearly to non-technical stakeholders.

VOLUNTEER EXPERIENCE

Volunteer – Marketing Team

Sep 2025 – Present

MWN Marketing

- Contributed to digital content creation and supported marketing team coordination.

LANGUAGES

- Arabic — Native/Fluent | English — Advanced | French — Beginner
